# Brief Explanation of Decision Table

1. The decision table starts by authenticating a user's login credentials. User's identity is confirmed, whether a player or Admin(Panel and Judges). Players can apply for trial matches for any no. of sports.
2. After the request of players for trial matches, the type of sport is confirmed (whether a team or individual sport).
3. For the final selection of players for team sports criteria are given to their team as well as individual performance.
4. If the performance of the individual is good and he/she belongs to the winning side , he/she will be selected and if he/she belongs to the losing side but his performance is good, he/she will be considered(selected in case there is a spot left in the team).
5. Function of the judge is to generate order for sports equipment.
6. Function of sports panelist is to make the final team.
